

Mangazon Super

Nutrition and Fertilization

Combined liquid fertilizer for rapid absorption of magnesium, manganese and Zink | 34g per liter of magnesium MgO+GA | 34g per liter of manganese Mn+GA | 34g per liter of zink Zn+GA

The product contains magnesium, manganese and zinc chelated with gluconic acid, which helps with rapid and efficient plant absorption. The composition enables a balanced nutrition of these minerals, helping with plant respiration and involved in photosynthesis and various enzymatic reactions.

Crop	fertigation Dosage	Spray Dosage	No. of Treatments
Vegetables and leafy crops	300-500 cc/dunam	250-350 cc/dunam	2-4
