

Fungicides

Capitan 70 WG

Water-Dispersible Granule

Plant Protection and Inspection Services License. No.: 4017/צח/09

Fungicide for grapevines, nectarines, peaches, apples, pears and almonds

Package: 3 kg

Contains: 70% captan

Group: M4

General: Capitan 70 WG is a fungicide for exterminating plant diseases in plantations and vineyards. Capitan 70 WG is a preventative product for diseases transferred by rain in the winter and spring. Therefore, Capitan must be sprayed before the rain. Ensure full and consistent coverage of foliage, branches and shoots in order to achieve good extermination. Do not spray with oil preparations 6 weeks after using Capitan.
