Daster Dustable Powder®

Powder

Plant Protection Services License. No.: 4465/הצ/20

Dusting Pesticide

Package: 10 Kg.

Contains: Talc 99.12% Bifenthrin 0.88%

General: Daster is a dusting powder containing Bifenthrin for exterminating cluster moths and fruit flies in vines.

In addition, dusting dries the grape seed and reduces cluster rot.

Instructions for Use

Crop	Pest	Dosage (kg/dunam)	PHI	Notes
Vine	Cluster moth	3.5 kg/dunam dusting	4	2 applications (first at least 45 days after Telstar spray application. Gap between both applications, at least 7 days.
Wine grapes	Fruit fly		6	2 applications (first at least 14 days after Telstar spray application. 3 dusting applications at 4-11 days apart)
