

INNOVATORS IN THE FIELD

Foliar Fertilization

TruPhos Platinum 5-18-2

For use as sprayed foliar fertilization and fertigation to encourage growth at initial growth stages

Package: 1, 5 liters

Composition:

Nitrogen (N)	5%	Copper (Cu)	0.1%
Phosphorus Oxide (P ₂ O ₅)	18%	Iron (Fe)	0.1%
Soluble Potassium (K ₂ O)	2%	Manganese (Mn)	0.05%
Magnesium (Mg)	0.5%	Molybdenum (MO)	0.05%
Boron (B)	0.1%	Zinc (Zn)	0.8%
Cobalt (Co)	0.05%		

Contains: Nitrogen, phosphorus, potassium and microelements in MOD*, CMM** technology real solution

Recommended Dosages

Crop	Foliar Spraying Dosage	Fertigation Rates
• Fodder crops: Alfalfa, clover, hay crops • Field crops: Cereals (wheat, barley, oatmeal), corn, cotton, sorghum • Edible legumes: Beans, lentils, peanuts, peas, soy • Tuber vegetables: Beets, carrots, garlic, radishes, potatoes, sweet potatoes, turnips • Leafy vegetables: Celery, beet leaves, cilantro, cruciferous vegetables, lettuce, parsley, spinach • Other vegetables: Artichoke, asparagus, pumpkin, eggplant, okra, onion, pepper, rhubarb, string beans, sweet corn, tomatoes, strawberries, watermelon, cucumber • Deciduous plantations: Apple, apricot, avocado, cherry, nectarine, olive, peach, pear, persimmon, Japanese plum, pomegranate, European plum, quince • Subtropical: Citrus (all species), fig, kiwi, mango	250-500 cc/dunam	Product application number and frequency determine the dosage Do not apply more than 250 ccd/dunam in a single application Do not apply more than 4 l/dunam per season Always apply the product toward the end of irrigation

• Nuts: Almond, hazelnuts, macadamia, pecans, walnuts • Grapes: Edible grapes, wine grapes • Other crops: Herbs, safflower, sunflowers, rapeseed
