

Fixol SL 350

Soluble Liquid

Warnings: The preparation is hazardous when ingested.

Solution Preparation:

Mix the required solution quantity in water and stir well. Pour the mixture into the fertilizing container attached to the fertilizing pump and **add the iron chelate solution at the last third of daily irrigation.**

Solution dosage depends on the size of the crop and level of deficiency. Chlorotic plants require a higher dosage of the solution. Dosages for various crops are presented below:

Crop	Age	Dosage (cc/tree)	Remarks
Avocado, Mango, Citrus	1-3 years	70	Apply the substance at the root base
	4+ years	280	
Vines	All ages	15	
Nectarines, Plum	All ages	25
